

Electrical & Utility Cupboards

Information Sheet

Margarita Plaza

Electrical meter cupboards are situated at the end of each corridor in the chute rooms. For safety reasons and for added fire security these cupboards are locked and can be opened with a simple splined security key. (Available from all hardware/DIY stores). These keys are also used to open the utility doors outside each apartment.

Please ensure all your residents are supplied with a key as we have had repeated costly damage to doors.
